Amsterdam Is En Fete In Honor of the Coronation Which Will Occur Tomorrow.

The waiting crowd were entertained with matinees by gorgeously attired troops. At 2 o'clock firing of a royal salute announced the arrival of the Queen's train. The Queen and her mother were greeted by the government and city officials and other dignitaries.

Their majesties entered the state car amid the cheers of the multitude, and a triumphal procession set out for the palace through the route lined by thousands of enthusiastic subjects. The procession was a brilliant one, and the scene became more splendid when the palace was reached. There infantry, cavalry, marines, guards, etc., up to await the coming of the youthful ruler. The queen was delighted with the royal demonstration, and waved her handkerchief and bowed in all directions.

Parsons, of New York City, president of the association. The convention which will be five days in session will be occupied mostly with routine business. The Chicago delegates will support the movement, which they inaugurated some time ago to secure the passage by congress of a law for a retirement bill for civil service employees of the government. The law to meet their views must provide that all letter carriers and other civil service employees of the government, who have served twenty years, may retire on seventy-five per cent. of their pay for the rest of their lives. The convention will take steps, it is understood, to establish a mortuary fund. The death benefits of the association are now met entirely by mortuary assessments.

Shifting the World's Axis. M. Fouche, the vice-president of the French Astronomical society, smitten with the frenzy of Archimedes, has just been calculating whether it would not be possible to shift the axis of the earth from the poles to the equator. He comes to the conclusion that the thing could be done by accumulating such a mass of matter at some point on the equator as to compel, so to speak, the north pole to shift its position and establish a rotation at right angles to the present movement. To achieve this would require a mechanical effort equivalent to the displacement of 66 sextillions of tons, and 1,000,000 steam engines of 13,000 horsepower, working for about 2,000,000 years, would do it. As the French say, "It is not more difficult than that."

Her Superstition. "What, want to leave to-day, Jane, and you only came yesterday?" "Well, yes, m. You see, you're the thirteenth missus I've had this year, and you're unlucky." "Why, then, did you come?" "Cause I had to have a thirteenth and I thought I'd get it over. I leaves ter-nigh, mum."--Tit-Bits.

Keeping the Gate and Walk Exclusive.

Canon Knox-Little told at a church congress once of a lych-gate in front of a beautiful church which had been restored and made very nice. There was painted over the door: "This is Gate of Heaven," and underneath was the large notice: "Go Round the Other Way."--San Francisco Argonaut.

Following Storms a Mile High.

The United States weather bureau is about to make the experiment of following the course of storms and cold waves, from the Rocky mountains to the Alleghenies, at an altitude of a mile from the earth's surface. This is to be accomplished by means of a series of fifteen or twenty high-level observing stations. By means of simultaneous observations made at these stations it is hoped that important facts may be developed. At the height of a mile the diurnal variations of temperature felt at the earth's surface practically disappear, and the progress of a storm at that elevation is free from the distracting elements introduced by local effects near the ground.

A Great Genius.

"What a wonderful painter Rubens was!" remarked Mr. Gibbs, at the art gallery. "Yes," assented Mrs. Gibbs. "It is said of him that he could change a laughing face into a sad one by a single stroke." "Why," spoke up Johnny, in disgust, "my schoolmaster can do that."--Tit-Bits.

Justified Her Idea.

Clara--"Tell me just what sort of a man your fiance is." Laura--"Oh, he's everything that's nice." Clara--"I'm so glad. You know I have always said that people should marry their opposites."--Pick-Me-Up.

Frog Sings with His Mouth Shut.

It is said that one of the most extraordinary things about frog music is the fact that the frog keeps his mouth closed when he is singing.

NO ORDER TO MOVE HAS BEEN RECEIVED

FIRST REGIMENT STILL AT
JACKSONVILLE.

Sentinel Correspondent Tells of the
Beckerings Among the Men—Says
the Proud Wisconsin Organization
Is But a Wreck of Its Former
Self.

Word comes from Jacksonville that
James Morton has arrived at the camp.
His son is at Pablo Beach convalescent
hospital. Private Inman will not be
moved for a few days. Following sick
will go to Janesville as soon as trans-
portation arrives: Mather, Brown,
Glennon, Coryell brothers, Farmer,
Tilt, Flint, Yeomans, Dailer, Stewart,
Sinderud, and Corporal Armstrong of
Company B, Beloit.

The Milwaukee Sentinel's dispatches
say: Those sick include all in the
regimental and division hospitals, in
private houses and quarters, but not
the sixty-five Wisconsin boys now re-
cuperating in the convalescent hospi-
tal at Pablo beach. The total sick
therefore is 363. Here is a list of men
now in the regimental and division
hospitals, in private homes and in the
convalescent hospital at Pablo beach,
the names being secured from each of
the company records. The names of
the twenty-eight being included:

Co. A, Janesville.

Privates: Schneider, Knipschield,
Bond, Caniff, Sisson, Salzer, Inman,
Wilbur, Christianson, Wyant, Martin,
Haller, Trolle, Hein.

Privates Bond and Inman are seri-
ously ill with typhoid. Last six are
convalescent and others not danger-
ously ill.

The difference in the total given
above is explained by the fact that of
the 263, 176 of those reported sick are
not in hospitals, but in quarters.
Those include those recovering and
those having but slight ailments, mak-
ing them unfit for duty. As soon as
serious cases develop they are removed
to the division hospital. None was
taken there today. Those in the hospi-
tals are all suffering from malarial
typhoid and intermittent fevers. The
most dangerous are the typhoid cases.

May Leave Today

The Sunday Sentinel publishes the
following dispatch:

Headquarters First Wisconsin Regi-
ment, Jacksonville, Fla., Sept. 3.—If
certain details, which should be com-
pleted by the First Wisconsin regi-
ment Monday or Tuesday; if not, it
may not reach home before Friday or
Saturday. Gov. Scofield, who is in
Washington today, succeeded in hur-
rying matters for the muster out of
the regiment.

Under the regular routine of busi-
ness there is a great deal of work con-
nected with mustering out, and the
officers are now busy at it. Major
Chamberlain, who has charge of the
work for the First, must check up the
accounts of every company. Every
piece of property issued by the govern-
ment to the regiment must be ac-
counted for.

Troops Will Come to Milwaukee.

By Governor Scofield's arrangement
there is another change in the pro-
gram. The plan of the regiment go-
ing to Camp Douglas is changed, and
instead will go to Milwaukee. There
they will give up the government prop-
erty, and the various companies will
proceed to their homes from that city.
The property will be taken to Camp
Douglas and stored there. This ar-
rangement greatly facilitates the work
of getting the boys home quickly.

Terrible Work of Typhoid.

The First Wisconsin regiment today
is a sorry body of soldiers. One would
not recognize it as the same organiza-
tion that two months ago surpassed
every regiment in the Seventh corps.
At that time it was not only the
best from a physical point of view, but
in discipline and general soldierly
qualities. Not so today. The regi-
ment formerly so full of life and vigor
is like a living graveyard. Not a sign
of activity remains, not a sign of hap-
piness is seen on the once joyful faces,
now haggard and pale from sickness.
Boys two months ago stalwart and
ambitious now walk with the assist-
ance of canes. Boys once full of am-
bition are feeble and downcast. The
splendid drills once so admired have
been suspended, and camp duties are
carried on reluctantly. All the boys
do is to try to keep well. Many find
it impossible to do even this. Fever is
in the regiment, and fight as the boys
may they cannot get rid of it.

Entitled to Commiseration

The Second and Third Wisconsin
boys were considered unfortunate,
but to one who has observed the three
regiments the First is by far the
most pitiful sight. The boys in Porto
Rico have been campaigning. They
have been careless about drinking
water and have been obliged to sleep
on wet ground, as well as live on
poor rations. Large sick lists have
been reported but scarcely so large
as the First. In the Second and Third

these, who are not sick
are cheerful and hopeful of an early
return. There is life and harmony
among the available men, but it is
far different with the men of the
First. With nothing to do but to
guard their health they have been
stricken down in spite of the precau-
tions they have taken.

Placing the Responsibility

To attempt to place the responsibil-
ity would be a hard task. Company
commanders, non-commissioned offi-
cers, as well as those on staffs, are
accused, with how much justice few,
if any, can determine. Regardless of
the cause or who is to blame, the
fact remains that there is no im-
provement in the situation. For
everyone discharged a new one goes
to the hospital. Yesterday eighteen
new patients were sent to the hospi-
tal. Today four more went there.
There are now, according to the com-
pany report, about 400 men on the
sick list. Of these 154 are in the di-
vision hospital, sixty-seven in the
convalescent hospital at Pablo beach
and six in the regime tal hospital.

The rest are in quarters. Some are
recovering from illness and others are
ailing slightly. A conservative esti-
mate of men who cannot fight or dis-
charge company duties is 300. Just
how many will have to be left behind
when the First regiment starts home
is not known.

Major McDill is determined that not
a single man shall be taken home who
cannot travel without any risk and
therefore a considerable number will
remain. At his request the war de-
partment has ordered Chaplain Varney
to remain when the regiment leaves
and look after the men.

Warring Factions in Regiment.

There are other unfortunate circum-
stances. The harmony and good feel-
ing among men and officers is gone.
Factions, which have to a great extent
destroyed discipline, exist, and the
good work for which the regiment has
been noted cannot be done. It came
about in this way. There are certain
officers perfectly satisfied with the
present occupation and ambitions, who
want to go to Cuba with Gen. Lee. Of
these there are probably a dozen,
scarcely more. There are some privates
who also favor going to Cuba,
but the majority of officers and men
evidently are opposed to going and if
left to their choice would vote to go
home. These factions make it any-
thing but pleasant for each other. To
start the ball of discontent rolling
those who favor going to Cuba have
accused the others of cowardice. It is no
secret and is done above board daily.
Officers are known to have disrespect-
fully referred to those who favored
mustering out. They have termed
the men "old women" and accused
them of having cold feet and have
made other stinging remarks. Privates
have been stopped and scoffed at by
men with shoulder straps in the pres-
ence of others. In short, some of
those who opposed mustering out
have made every effort to reflect on
the motives of the majority in ad-
vocating a return home. On the other
hand those who want to go home ac-
cuse the officers of wanting to remain
in the service for the good salaries
and the easy work connected with the
service in Cuba. They argue that they
themselves cannot afford to waste
two years of their time in Cuba at
\$13 a month, and if given the op-
portunity are willing to go home,
since the war is over and no fighting
is to be done.

Make Bitter Accusations.

While one side denies cowardice,
which is unjustly charged, the other
denies that salary is a motive for their
desire to go to Cuba. These conditions
with sickness have made the First a
body of discord. Men speak disre-
spectfully of their officers and the lat-
ter likewise of the men. Altogether
it has demoralized what was once the
best regiment in Jacksonville. Under
the circumstances the sooner the boys
are mustered out the better. When
that has been done there will be many
who enlisted as comrades but who will
leave the service almost enemies.
There will be many axes to grind
when the boys come home. Incredi-
ble as these facts may seem, every-
body knows them to be the truth.

General Bragg's Opinion.

The ticket and platform have been
subjected to the severest criticisms on
the part of some democrats as General
Edward Bragg, Colonel G. M. Wood-
ward, James G. Flanders, Edward P.
Vilas, Lewis M. Ogden, John F. Har-
per, Hugh Ryan, John S. George, Frank
M. Hoyt, and others. General Bragg,
speaking of the ticket and platform,
said:

"Those silver fellows are not
straight democrats; they are populists.
I have never lost my vote, and when
election time comes around I will go
to the polls and cast my ballot, but it
will not contain the name of a single
silver man."

BICYCLE RACE MEETING

Local Men Will Have Charge of L. A. W.
Wheel Contest.

Under the auspices of the Janesville
Cycling club a cycle racing tourna-
ment will be held in this city on the
afternoon of Friday, September 30,
and \$200 in prizes will be hung up to
be competed for.

Business men throughout the city
have promised to help the cause along.
No county fair or races of any kind
has been held in the city this year and
for this reason the coming event prom-
ises to be a record breaker. The meet-
ing will be given under L. A. W. rules and
a grand ball will bring the day's festi-
vities to a close. Cyclers from all
parts of northern Illinois and southern
Wisconsin will be in attendance. All
communication should be addressed to
Secretary E. V. Whiton Jr., Janesville,
Wis.

and some of his experiences are given
in the article in question.

IS A WEAK TICKET THE PEOPLE SAY

WISCONSIN DEMOCRATS CAN-
NOT WIN OUT.

Candidates Are Not Well Known, and
Many Influential Men Refuse to Ac-
cept The Populist Platform—
Irishmen Are Slighted—Gold Men
Will Not Support It.

Milwaukee, Sept. 5.—[Special Dis-
patch to the Chicago Inter-Ocean]—
Last week was rich in events that
please the republicans of Wisconsin
and inspire them with faith in a vic-
tory in November. The truth of the
old saying, "Give the democrats all
the rope they want, and they will
hang themselves," was confirmed at
the convention just held by the state
democracy in this city. After the
nomination for governor, there was
not a semblance of order in the pro-
miscuous crowd made up of the 663
delegates. Chairman O'Connor lost
head, and the control of the conven-
tion slipped away from him. There
was no leader who could take hold
and guide the noisy assemblage out of
the middle into which it had worked
itself, and there was nobody to point
out what was best to do. Mayor
David S. Rose, disgusted with what
had transpired on the first day of the
convention, did not appear on the last
day, when the entire ticket below the
governor was made up, and nobody
else had the courage to step forth and
point out the hole into which the con-
vention was drifting.

The only consideration that counted
in the make-up of the ticket was the
number of votes which each candidate
nominated could control. Fitness and
capability cut no figure in selecting
them. It was an open bicker, prin-
cipally with racial considerations, and
principally was never thought of.

Chose a President

To gain votes from the disgruntled
LaFollette men, the convention ad-
ministered a hard blow to those who
stood by the party all their lives and
to fish for votes among the gold dem-
ocrats it repudiated fusillo, but put a
populist on its ticket. One of the can-
didates nominated is an ex-Baptist
minister and an ex-gold man, because
his name is on the list of those who at
the caucuses two years ago voted
with the republicans. Another man
owes his nomination to the circum-
stances that he is a Pole. He is a
man not too well suited to fill the
democratic with enthusiasm and de-
sire to elect him. The stanch young
men of Irish descent, who feel that
offices and honors should be given to
those who are already democrats,
openly say they will vote for Scofield
because they are totally ignored.

The nomination of P. V. Deuster
has equally failed of its object. It
was an offer to the German gold dem-
ocrats, but he is not at all known
among them. His influence had never
reached the great mass of Germans
who repudiated silver two years ago,
and the democratic paper which he
published has been absorbed by the
republican Herald. He is not a man
to inspire or influence many people in
his behalf, and he adds little strength
to the ticket, because he is too ad-
vanced in age, and incapable of mak-
ing any kind of a campaign. The
candidate for superintendent of public
instruction, W. H. Schulz, of Sioux
county, is an unknown quantity, and
certainly does not enjoy the reputation
of Professor L. D. Harvey, the repub-
lican nominee. He has lived all his life
in the obscurity of Sauk county's
sand wastes, and nothing else is
known about him.

General Bragg's Opinion.

The ticket and platform have been
subjected to the severest criticisms on
the part of some democrats as General
Edward Bragg, Colonel G. M. Wood-
ward, James G. Flanders, Edward P.

Local Men Will Have Charge of L. A. W.
Wheel Contest.

Under the auspices of the Janesville
Cycling club a cycle racing tourna-
ment will be held in this city on the
afternoon of Friday, September 30,
and \$200 in prizes will be hung up to
be competed for.

Business men throughout the city
have promised to help the cause along.
No county fair or races of any kind
has been held in the city this year and
for this reason the coming event prom-
ises to be a record breaker. The meet-
ing will be given under L. A. W. rules and
a grand ball will bring the day's festi-
vities to a close. Cyclers from all
parts of northern Illinois and southern
Wisconsin will be in attendance. All

A STORY BY GENERAL J. B. DOE

The September number of Outing

article from the pen of General J. B.
Doe, on "An Elk Hunt in the Rocky
Mountains." General Doe took an ex-
tended trip through the western big
game country about two years ago,
and some of his experiences are given
in the article in question.

PILLAR IN GOD'S TEMPLE

Rev. A. C. Kempton's Sermon From Reve-
lations 3:12—Address to Young Men

In spite of the hot weather a large
congregation greeted Rev. Mr. Kem-
pton. His morning subject was "The
Pillar in God's Temple." His text
was in Rev. 3:12.

He said in substance:

These are the words of a risen
Savior. It is a promise of reward
for faithful service. Notice first, the
struggle in which victory is to be
won. This world is a world of struggle.
All of us struggle after something.

The struggle spoken of in the text is
the struggle after righteousness. It
is the noblest of all struggles. Man,
if he would be righteous, must over-
come himself. It is a lasting struggle.
All that man is, must he give, all that
he has and is.

Notice the reward given for this
struggle. He is a pillar in the temple
of God.

A pillar is an essential part of the
temple, without it the temple would
fall.

A pillar denotes strength.

A pillar denotes stability.

A pillar denotes devotion.

A pillar denotes uprightness.

A pillar denotes purity.

The one who would become a pillar
in the church of God, must have all of
these various qualities. There are
many here who are the pillars of this
church, who have been struggling
these many years, and are overcoming
themselves. There are those who are
pillars in the world-wide temple of
God. What a pillar was Gladstone in
righteous statesmanship. What a pil-
lar in the temperance work was the
world-wide influence of Francis E.
Willard. Again, those who overcome,
shall be pillars in the new Jerusalem.
Yes, they shall "go out, no more for-
ever." Earthly temples change, but
the pillars of God's temple shall con-
tinue to share in the glory of God's
temple forevermore. It is not a mere
profession, but becoming a real part of
God's temple. He that overcometh
shall bear the name of God, the city of
God and above all, the new name of
Redeemer. May this be our great
blessing.

In the evening Mr. Kempton gave
the second of his "Seven Sermons for
the Young Men and Women of Janes-
ville." His subject was "A World of
Opportunity."

THE JURY COULD NOT AGREE

McKugo Collins Case Will Have To Be
Tried Again.

The jury in the case of McKugo vs.
Collins agreed to disagree Saturday
afternoon, and the case will again
come up for trial Thursday, Septem-
ber 8, at 9 o'clock. The question at
issue was over a plea of abatement.
The defendant, Collins, filed a plea in
abatement, claiming that there is an-
other suit pending for the same cause.
Last spring the defendant leased from
the plaintiff a farm of one hundred
and sixty acres in the town of Rock.
The plaintiff alleges that Collins was
to pay an annual rental of \$400 for the
farm, \$200 payable in the spring and
\$200 the following winter. McKugo
claims that Collins agreed to give a
bankable note for the last \$200, which
he failed to do, and suit was brought
to recover judgment for the amount.

WHOLESOME ADVICE

For People Whose Stomachs Are Weak
and Digestion Poor

Dr. Harlandson, whose opinion in
diseases is worthy of attention, says
when a man or woman comes to me
complaining of indigestion, loss of ap-
petite, sour stomach, belching, sour
watery risings, headaches, sleepless-
ness, lack of ambition and a general
run down nervous condition I advise
them to take after each meal one or
two of Stuart's Dyspepsia Tablets, al-
lowing the tablet to dissolve in the
mouth, and thus mingle with the food
eaten. The result is that the food is
speedily digested before it has time to
sour and ferment. These tablets will
digest food anyway whether the stom-
ach wants to or not, because they con-
tain harmless digestive principles, veg-
etable essences, pepsin and Golden
Seal which supply just what the weak
stomach needs.

I have advised the tablets with
great success, both in curing indiges-
tion and to build up the tissues, in-
crease flesh in thin nervous patients,
whose real trouble was dyspepsia, and
as soon as the stomach was put to
rights they do not know what sickness
was.

A fifty cent package of Stuart's Dys-
pepsia Tablets can be bought at any
drug store, and as they are not a se-
cret patent medicine, they can be used
as often as desired with full assurance
that they contain nothing harmful in
the slightest degree; on the contrary,
anyone whose stomach is at all de-
ranged will find great benefit from the
use of Stuart's Dyspepsia Tablets. They
will cure any form of stomach
weakness or disease except cancer or
the stomach. Full size package at
drugstore 50c or \$1.00 or by mail from
Stuart Co., Marshall, Mich.

BASEBALL REPORT.

Standing of the Clubs Composing the Various Leagues.

Two successive defeats came as somewhat of a quenching on the newly kindled enthusiasm over the showing of the Chicago team. Brooklyn and Pittsburgh were low-rated in comparison with New York and Boston, but upsets come from unexpected quarters in baseball. Pittsburgh regained seventh place by its victory yesterday. The most important game of the day was that between Cleveland and Cincinnati. Breitenstein pitched finely and the Reds took the game. Louisville captured two games from St. Louis. The standing:

JUSTICE AT HAND.

French Cabinet Will Grant a Revision of Dreyfus Case.

Paris, Sept. 5.—There is good authority for the statement that the cabinet will decide to grant a revision of the Dreyfus case.

President Faure returned to Paris at noon Sunday and had a long conference this evening with Prime Minister Brisson. Later he received the other ministers, individually. He asked M. Cavaignac, minister of war, to reconsider his resignation, but the latter persisted in his determination to retire from office.

Many members of the chamber of deputies have, in view of the gravity of the situation, returned to Paris. There is still much excitement among the populace, and Gen. Zurlinden, the military governor of Paris, has taken every precaution to prevent riots, should any result from the action of the cabinet.

Western Ranch Owner Killed.

Chadron, Neb., Sept. 5.—Russell Thorpe, a prominent cattleman of Wyoming, was killed Saturday near Lusk, Wyo., by being thrown from a buggy. He was driving from Lusk to his cattle ranch at Rawhide Butte, Wyo., and it is thought that the shock of the runaway brought on apoplexy, which caused his death. Russell Thorpe, Jr., manager of a concert company of Chicago, arrived in the city Sunday and was informed of his father's death. He left for Lusk on a special train to assume charge of his father's extensive interests.

Natives Are Being Slain.

Manila, Sept. 5.—According to advices from Iloilo Gen. Rios, governor of the Visayas, is arresting and shooting suspected persons, including prominent natives of Manila. The obstructions on the railway from Manila to Calocan have been removed and the first train left yesterday. It is expected that traffic will be resumed to the Dagupan terminus tomorrow. The steamers Ohio and Valencia sailed for San Francisco yesterday.

Members Are at the Front.

Washington, Sept. 5.—Gen. D. S. Stanley, president of the Society of the Army of the Cumberland, announces that the executive committee of the organization has decided that the annual meeting which was to have taken place at Detroit the 21st inst. will be postponed until September, 1899, many of the active members being engaged in the war.

Factory Destroyed by Fire.

Bay City, Mich., Sept. 5.—The Hampton Manufacturing company's plant on the eastern outskirts of the city, composed of box factory, planing, mill, stock sheds, and office, were burned to the ground at 3 o'clock Sunday morning, entailing a loss of \$40,000, with \$23,000 insurance. The fire caught in the store shed, and a heavy southwest wind carried the flames to the factory. The origin of the fire is unknown.

Owosso's Fire Loss Heavy.

Owosso, Mich., Sept. 5.—The fire which swept over the business section of this place Saturday was the most serious disaster which has ever fallen upon Owosso, but the victims are not discouraged and will rebuild at once. The fire was no doubt caused by spontaneous combustion in L. E. Woodard's large furniture factory. The moment a spark appeared a terrific report was heard and in an instant the fire had spread to all parts of the building. Within a minute the flames were beyond control. The fire spread to the river bridge, a few rods away, burning it, and preventing the firemen crossing the river to a point where other buildings had been ignited. The loss will reach \$220,000.

Death of George S. Albee.

Oshkosh, Wis., Sept. 5.—George S. Albee, president of the local State normal school, died Sunday of nervous prostration and heart trouble. He had been ill less than a year. Prof. Albee was born in Allegany County, N. Y., in 1837. He was a graduate of Ann Arbor college. In 1864 he was principal of the Peoria (Ill.) high school, and in 1865 of the Kenosha high schools. From 1865 to 1871 he was superintendent of the Racine schools, and in 1871 was chosen president of the Normal school here, then in course of erection. He was at the head of that institution until his death.

Pana Awards Court's Action.

Pana, Ill., Sept. 5.—The situation regarding the lockout of the Pana union coal miners has no new features. The several operators and their families still remain at the Springside mine under a heavy guard of deputies. Everything now seems waiting the action of Judge Farmer in the injunction case filed in the circuit court, which will not be called until Wednesday. The outcome of the case is awaited with much anxiety on both sides. Apparently no serious action or results will be had until Wednesday.

Lightning Strikes Oil Tank.

Findlay, O., Sept. 5.—During the storm Sunday afternoon lightning struck one of the mammoth iron oil tanks of the Buckeye Pipe Line company, containing 35,000 barrels of crude oil. The tank exploded and set fire to a second one and both tanks with their contents were destroyed. Hundreds of workmen fought the flames for several hours and succeeded in saving the hundred other tanks in the vicinity by throwing up embankments. The loss is \$50,000.

Yellow Jack at New Orleans.

Jackson, Miss., Sept. 5.—The Louisiana state board of health reports to the Mississippi state board two cases of yellow fever at New Orleans. Secretary Hunter has quarantined this state against that city. Three new cases of yellow fever are reported at Orwood, in this state.

Six Killed and Two Wounded.

New Orleans, Sept. 5.—Six men met their death on the government steamboat John R. Meigs, which was wrecked by an explosion opposite Fort St. Philip Saturday afternoon while removing torpedoes laid in the Mississippi river at the opening of the war.

Hope for Miss Winnie Davis.

Narragansett Pier, R. I., Sept. 5.—The condition of Miss Winnie Davis shows no marked improvement. She passed a restless night, but was more comfortable Sunday and her physician is still hopeful of her recovery.

The Omaha Exposition

When the World's Fair at Chicago ceased to exist, it was supposed that we should never look upon its like again. However, the Trans-Mississippi Exposition at Omaha has effectively reproduced in similarity all of the buildings which made the White City so attractive in 1893.

It does not now take two weeks to wander through the grounds and structures and then be compelled to go away with a jumble of ideas, for the Omaha Exposition people have profited by past experience, and have so improved the arrangement of exhibits that no more than two or three days of time need be consumed in admiration and inspection of the marvelous resources of the west, collected together in the chief city of Nebraska.

Even the new Midway, a reproduction of the far-famed Street of All Nations of 1893, with many improvements upon the original.

The electric lighting of the buildings, grounds and lagoon at night makes a scene of enchanting beauty, alone worth traveling a thousand miles to see.

The means of communication between the city and the grounds are simple, and the distance to be traveled is short.

The ways of reaching Omaha are innumerable, but chief among them is the direct Chicago and Omaha short line of the Chicago, Milwaukee & St. Paul railway, with its electric-lighted, vestibuled trains. Dining car service on route.

Excursion tickets are on sale at every coupon ticket office in the United States over the Chicago, Milwaukee & St. Paul railway through Northern Illinois and Central Iowa, or call on the agent for farther information.

ROW AMONG THE SOLDIERS

The fact that the Wisconsin soldiers at Jacksonville camp are divided into warring factions is to be deplored, as no good can come of the controversy, and ill must result. Some of the volunteers want to remain in the service and some do not; some of the men criticize the officers, and some defend them.

The bitterness of the controversy is shown by the remark made by Major Lynch, of Milwaukee, who commands the first battalion. When he was asked why the first was not in a recent parade at Jacksonville, he said: "They went men in that parade; not old women." The inference is that Major Lynch thought some of the men of the regiment were lacking in courage. This remark will doubtless greatly increase friends of the accused, yet the citizens must admit that equally biting remarks have been made by friends of the soldiers concerning the officers.

Partisans of both factions should bear in mind the fact that there are generally two sides to a question and there is nothing to show that there are not two phases of the present agitation. People, to speak plainly, who charge the army officers and officers of the war department with heartlessness and criminal incompetency must not be angered if the officers and department heads retaliate. A brutal incompetent or drunken officer is an object of popular dislike. So is a babyish, whining or drunken private. Doubtless there are men of both classes in the army, but it is doubtful if one class outnumbers the other in proportion to the numbers of men in service.

Is it not better to assume that both privates and officers have acted conscientiously and patriotically at all times?

The first regiment made a splendid record at Jacksonville, and called forth lavish praise from that bluff but critical old soldier, General Fitz-Hugh Lee. Is the career of this proud regiment to end in inglorious blowings, charges, and counter charges? Let us hope not. May the men bury their grievances, and come home as they went away—as patriotic, devoted and self-sacrificing defenders of the flag. "The first duty of a soldier, is to obey orders."

DEATH RATE IN ARMIES

The Chicago Inter-Ocean puts a quietus on the talk about the "awful death rate among the soldiers" in the following editorial:

"The death rate in the United States army, regulars and volunteers for the four months of service, is 5.4 in a thousand. This is on a basis of 240,000 men in the field, representing an annual death rate of 16.2. Averaging the length of service at three months, so as to include the second enlistments in June, the death rate per month is 1.8 per thousand, or an annual death rate of 21.6 per thousand and from disease. Add 300 deaths by wounds, and the annual death rate, counting the term of service as three months, would be 30 in a thousand, or, on the basis of four months' service, 22.5 per thousand, including all deaths from wounds and disease.

"The average annual death rate in the British army during the peninsula war was 113 per thousand from

disease and 52 per thousand by wounds received in action. The average annual death rate in the British army from 1803 to 1812 was 71 per thousand from disease and 9 by wounds in action. In July, August, and September, 1854, the British army in the Crimea lost at the rate of 298 men per thousand per annum; in October November and December the loss was at the annual rate of 511 to every thousand, 443 of which were by disease. During the first three months of 1855 the death rate was so high that if it had continued the annual death rate would have been 913 out of every thousand and 98 per cent of it from disease. During the entire campaign of two and a half years the annual death rate was 282 per thousand, of which 202 were from disease and 80 by wounds received in action.

"In the army of the United States in the first year of the civil war the annual death rate was 53 per thousand per annum (34 per thousand by disease). On the 30th of June, 1863 there were in the hospitals of the Union army 185 men in every thousand. In 1861 the mortality among the home troops of Great Britain was 91 per thousand and among the troops abroad 100 per thousand. This was in time of peace.

"In the general reports on vital statistics published by the government the annual death rate in Chicago is given at 20.2; Havana, 45.7; London, 21.2; Boston, 23.5; St. Petersburg, 51.4. These figures are all from official sources. They show that in the first four months of war with unseasoned soldiers in the field and with two extremely arduous campaigns in progress the death rate of the army is less than in Chicago or London or Boston, and not one-half as large as that in St. Petersburg or Havana.

People should read the above, and then "ponder and reflect." It is easy to raise the voice of criticism, and people who have dear ones in the army cannot but be concerned for their welfare. But at the same time let justice be done all men. War is war, and the results are inevitable. Janesville people who have relatives living in Chicago do not worry themselves sick for fear their dear ones will die, yet the death rate in Chicago is larger than the death rate in the army!

If Secretary Alger had made one-half the blunders in conducting the war, that the yellow papers have made in printing the news, he would perhaps merit the treatment he is receiving from the vitriol-throwing sheets. The people will know that about one-fourth of the "news" in these papers, has been truth, and the other three-fourths has been "fake." Has Secretary Alger equalled this record?

The railroads are true commercial barometers. The last report of the Chicago, Milwaukee & St. Paul company shows that the road is now enjoying 15.20 per cent. more freight traffic, and 4.71 per cent more passenger traffic than was recorded that line by the people last year. The inauguration of a republican administration always brings about such changes as this.

As sheriff of Rock county, W. H. Appleby can and will save money for the people. Business, as well as political principles, demand his election. The tax payers ask only economical and efficient service of public officials, and they know that W. H. Appleby will fill the bill.

The platform promulgated by the Wisconsin free silver democracy has been condemned in unmeasured terms by many people. The most unkind out of all, however, has just been received. Bob Schilling says nine-tenths of it is "flap-doodle."

The fact that Mayor Rose, of Milwaukee, denounces The Milwaukee Journal as a "traitor to democracy" is likely to cause a rush of business to that paper that will swamp the office forces. Democracy of the Rose brand is at a discount these days.

In discussing the political situation in Wisconsin, the Chicago Inter-Ocean says "there is no more honorable man in public life than Governor Scofield, and his administration has been clean and efficient."

The French newspapers do not lack sensations these days. Just as the American-Spanish war ends, the Dreyfus case is re-opened.

The Wisconsin democrats and populists did not succeed in effecting fusion, although they succeed in creating confusion.

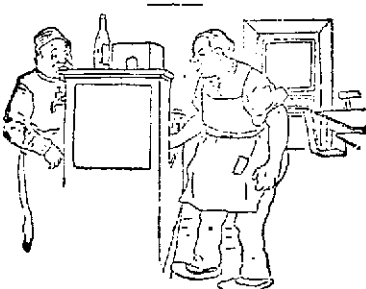

To err is human—except in the case of a yellow newspaper. Then to err is to gain distinction and a high salary.

However, the wisdom of barring out the French novels written by Lieutenant Colonel Henry cannot be questioned.

Truth wears well. People have learned that Dr. Witt's Little Early Risers are reliable little pills for regulating the bowels, curing constipation and sick headache. They don't gripe. People's Drug Co., corner East Milwaukee street.

Railroad Men Need Good Overalls...

For a month or more we have been showing the Lightning Jumper and Overall. Every railroad man and machinist who sees the garments wants them.

Their value is recognized at once. The Overalls open at the front instead of at the side and the shoulder straps need never be unbuckled. They lift off and on the shoulders like the suspenders on a pair of trousers. The old style opening and closing at the side leave a gap of several inches for grease and dust to pour through onto the under garments; also the apron of the old style being solid the suspenders have to be attached and detached every time they are worn. The Lightning Overall and Jumper being so snugly closed up it is not necessary for the wearer to keep his top clothing on and thereby making them feel bunglesome. A supporter pulls through the strings on the waist bands of the drawers, and consequently keeps them from slipping down over the hips.

All Garments Union Made And Bear the Label. These Jumpers and Overalls were placed before the delegates of the Brotherhood Locomotive Engineers at their convention held in St. Louis, May 11th, 1898, and pronounced as being the most practical they had ever seen and seventy five per cent. of them purchased from one to six suits each for personal use. The Lightning Jumper and Overalls were adopted by the Wabash R'y Co. and their employees as being superior to all other makes. They beat the world as working garments for railroad men and machinists. We are sole Janesville agents.

MEN ARE ANXIOUS TO GET THE ORDER

IF THEY MUST COME HOME,
WISH TO START.

Regiment Did Not Sing, 'Home Sweet Home' Instead of Star Spangled Banner—Jacksonville People and the Flowers—Officers Are Busy With Clerical Work.

Camp Cuba Libre, Sept. 2.—It is still uncertain when we will start north. If we must go, we are anxious that the start be made soon, and that plans for future civil life shall not be delayed. The return of so many of our sick makes the company street look very active, after their long absence.

A pretty little story came to me, how true I cannot say, but showing a kind feeling, I saw quietly expressed by spectators of the division review, in which we made our last appearance, Tuesday, and showing the sympathy felt for our boys. I am told that a party of townspeople had prepared a large quantity of flowers to be thrown as the remnant of the First Wisconsin passed. When they found we were not to parade, the blossoms were thrown aside with remarks to the effect that "they were for Wisconsin's boys none others shall have them."

By the way, state papers reach us with an item to the effect that "it is said" that this regiment refused to sing the "Star Spangled Banner" and sang "Home Sweet Home." They are both good songs. But the implied slur should be promptly denied. No such demonstration has taken place. We can't sing very well any way, but "America" is the only tune we dare tackle without fear of murder by frenzied listeners, of this man's town. That we sing well.

All books and papers must be in good shape to meet the mustering out officers, who are here today. It is reported that we may go home direct from here and have a thirty day furlough before being discharged.

Regimental and company officers are very busy with records and reports.

Lieutenant Whiting, who acting for Major Evans, as regimental surgeon, is swamped with clerical work. He will not delay the other reports, however, as he has his hat and coat off, sleeves rolled up, and is working night and day.

Corporal Collins and Private Farrell secured some good photos of the review yesterday.

Arrangements are being apparently to send our hospital corps men, Wray, Fletcher, Atkinson and Halverson, home with the regiment. F. G. M.

LABOR DAY MARKED IN PLEASANT WAY.

ANNUAL CELEBRATION HELD
AT CRYSTAL SPRINGS.

J. F. Lloyd, of Chicago, the Speaker of the Day, and Games and Athletic Sports Made Up the Program—Parade At Noon—Large Crowd In Attendance.

Labor day was celebrated in Jacksonville today in a fitting manner. Under the auspices of the Federated Trades' council, a picnic was held at Crystal Springs park this afternoon, and a large crowd was in attendance. The weather was all that could be asked, the rain of last evening and the sun of today making the day an ideal one. The working men of the city turned out in full force. The majority of the local factories were closed and the same applied to the business houses.

At 12:30 o'clock a street parade started from the Grand Hotel corner down West Milwaukee street and north on Main street in the following order:

Marshal of the Day,
Color Bearer,
Imperial band,
Speakers in Carriages,
Civic Societies,
Barbers' Union,
Typographical Union,
Cigar makers' Union,
Federal Union,
Tailors' Union,
Symphonizers of Labor.

At the corner of North Main street and Fourth avenue the unions broke ranks to board the steamboats that conveyed them to Crystal Springs park.

The principal speaker of the day was J. F. Lloyd, Mayor John Thoroughgood also making address. An excellent program of games was given during the afternoon and were the means of drawing many contestants. This evening a dance will be given at the park and Smith's orchestra will play.

The Children's Teeth.

Temporary teeth, as a rule, appear when the child is about seven months old. And they ought all to be through by the twenty-fourth month after birth. The gums during this time ought to be wiped with a small sponge soaked in borax, night and morning. When the child reaches its second year, a very soft, small tooth-brush may be used. When the teeth of children are regularly and properly attended to they seldom decay. Should the first teeth become loose or decayed, which they often do about the sixth or seventh year, they ought to be taken out so as to make room for the second set. If this is not done the permanent teeth will force their way through somehow beside them, and in consequence, the child's teeth will be crooked and the mouth spoilt, causing much trouble afterwards to have the teeth put straight.

A Case of Identity.

A Russian peasant having gone to the town to buy himself a pair of new boots, fell asleep by the roadside on his way home and was stripped of his cherished boots by a light-fingered tramp, but his sleep remained unbroken until a passing wagoner, seeing him lying half across the track, shouted to him to "take his legs out of the way." "My legs," echoed the half-awakened sleeper, rubbing his eyes, "those legs ain't mine—mine had boots on."—Modern Society.

Electricity as an Anesthetic.

A scientist has discovered that electrical currents in the form of waves rapidly succeeding one another can produce insensibility to pain and cold in the flesh, acting as an anesthetic like ether. When the currents were applied to the finger and thumb by wires the finger could be pricked with a pin without pain.

RELIEF FROM PAIN.

Women Everywhere Express their Gratitude to Mrs. Pinkham.

Mrs. T. A. WALDEN, Gibson, Ga., writes:

"DEAR MRS. PINKHAM:—Before taking your medicine, life was a burden to me. I never saw a well day. At my monthly period I suffered untold misery, and a great deal of the time I was troubled with a severe pain in my side. Before finishing the first bottle of your Vegetable Compound I could tell it was doing me good. I continued its use, also used the Liver Pills and Sanative Wash, and have been greatly helped. I would like to have you use my letter for the benefit of others."

Mrs. FLORENCE A. WOLFE, 515 Mulberry St., Lancaster, Ohio, writes:

"DEAR MRS. PINKHAM:—For two years I was troubled with what the local physicians told me was inflammation of the womb. Every month I suffered terribly. I had taken enough medicine from the doctors to cure anyone, but obtained relief for a short time only. At last I concluded to write to you in regard to my case, and can say that by following your advice I am now perfectly well."

Mrs. W. R. BATES, Mansfield, La., writes:

"Before writing to you I suffered dreadfully from painful menstruation, leucorrhoea and sore feeling in the lower part of the bowels. Now my friends want to know what makes me look so well. I do not hesitate one minute in telling them what has brought about this great change. I cannot praise Lydia E. Pinkham's Vegetable Compound enough. It is the greatest remedy of the age."

All About Eyebrows.

An arched eyebrow does not indicate the highest order of intelligence, but is expressive of great sensibility. Scant growth of the eyebrows denotes lack of vitality; on the contrary, heavy thick eyebrows indicate a strong constitution and great physical endurance. They are not beautiful on a woman's face, however much they may signify either mental or bodily vigor, and when they are not only heavy, but droop and meet at the nose, they are disagreeable, and are said to accompany an insincere and prying nature. Long, drooping eyebrows, lying wide apart indicate an amiable disposition. Where the eyebrows are lighter in color than the hair the indications are lack of vitality and great sensitiveness. Faintly defined eyebrows placed high above the nose, are signs of indolence and weakness. Very black eyebrows give the face an intense and searching expression; when natural they accompany a passionate temperament. Very light eyebrows rarely are seen on strong intellectual faces, although the color of the eyebrows is not accepted simply as denoting lack of intelligence; the form gives the key to the faculties and their direction. Red eyebrows denote great fervor and ambition; brown a medium between the red and the black.

The Oldest Doll.

What is probably the oldest doll in existence, a little figure rudely carved in wood, is in the British Museum. It was found in the sarcophagus of an Egyptian princess, who had died when a child, three centuries before the Christian era. When the wrappings were unfolded from the body, the baby fingers still clasped the doll.

LATE NEWS BY TELEGRAPH.

MUSTERING OUT IS FINAL.

The War Department Has Made Its Decision.

SOLDIERS GENERALLY PLEASED

Enlisted Men Express a Desire to Be Sent to Their Homes—Uncertainty as to the Garrisons Needed for Cuba and Porto Rico.

Washington, Sept. 5.—The statement by the war department of the regiments to be mustered out and those that are to be retained is intended to be final until the Cuban and Porto Rican commissions, which will begin work this week, report upon the garrisons required for both islands.

The department is besieged with inquiries from governors and congressmen as to the size of the army to be maintained and asking that the quotas for their states be as low as possible. The requests are in response to a general desire of the soldiers to be mustered out. The department has been unable to answer these questions, because there is no way of telling at this time just how large an army will have to be maintained for the next few months.

Intelligent answers cannot be given to these inquiries until it is known how many soldiers will be needed to garrison the new possessions and restore order in Cuba. The estimates of the military men vary from a few thousand to 75,000. Much depends upon the attitude of the Cubans. If they quickly disarm and return to work to rehabilitate the island fewer soldiers will be needed than if they remain armed until forced to go to their homes.

Adj.-Gen. Corbin has made the following official announcement of the intention of the war department in the matter of mustering out and retaining in the service the volunteer regiments. The following are the regiments mustered out:

Infantry—First Alabama, Second Alabama, First Arkansas, Sixth California, Seventh California, First Connecticut, First District of Columbia, First Illinois, Fifth Illinois, Seventh Illinois, One Hundred and Fifty-seventh Indiana, One Hundred and Fifty-eighth Indiana, One Hundred and Fifty-ninth Indiana, Fiftieth Iowa, Fifty-second Iowa, Twenty-second Kansas, First Louisiana, First Maine, Fifth Maryland, Second Massachusetts, Ninth Massachusetts, Thirty-second Michigan, Thirty-third Michigan, Thirty-fourth Michigan, Twelfth Minnesota, Fourteenth Minnesota, Second Mississippi, First Missouri, Third Missouri, Fifth Missouri, Second Nebraska, Nevada, First New Hampshire, First New Jersey, Second New Jersey, Second New York, Third New York, Eighth New York, Ninth New York, Fourteenth New York, Sixty-fifth New York, Seventy-first New York, First North Carolina, First Ohio, Third Ohio, Fifth Ohio, Seventh Ohio, First Pennsylvania, Second Pennsylvania, Third Pennsylvania, Fourth Pennsylvania, Sixth Pennsylvania, Eighteenth Pennsylvania, Second Texas, Fourth Texas, First Vermont, Second Virginia, Third Virginia, Washington, First Wisconsin, Second Wisconsin, First U. S. volunteers.

Artillery—A, Connecticut; A, Georgia; B, Georgia; A, Illinois; Twenty-seventh, Indiana; Twenty-eighth, Indiana; Fifth, Iowa; Sixth, Iowa; A, Louisiana; B, Louisiana; C, Louisiana; B, Maine; C, Maine; D, Maine; First, Massachusetts; A, Missouri; First, Ohio; A, Oregon; B, Oregon; A, Pennsylvania; B, Pennsylvania; C, Pennsylvania; A, Rhode Island; B, Rhode Island; Wisconsin.

AGUINALDO EFFECTS AN ALLIANCE.

Insurgent Leader in the Philippines Unites the Parties.

London, Sept. 5.—The Manila correspondent of the Times, telegraphing Sunday, says:

"Gen. Aguinaldo has effected an important alliance with the Santiales party, in the northern provinces of Pangasinan and Zambales. This party commands 5,000 armed troops and had hitherto resisted Gen. Aguinaldo's pretensions to dictatorship. There are active movements among the insurgents everywhere north of Manila. Vigan has lately been occupied, and a campaign has been directed against Bamaran, where the Spanish are supposed to be concentrated. The insurgents are in possession of the whole of Laguna Bay except a single position.

"This does not support the stories of serious disaffection among the insurgent leaders, although Aguinaldo's unpopularity is undoubtedly increasing. He is evidently using every effort to secure a recognition at the Hispano-American peace conference in Paris of the revolutionary government. His army doubtless numbers over 30,000 men, well armed and equipped."

Sick Soldiers Are Improving.
Indianapolis, Ind., Sept. 5.—The sick of the One Hundred and Fifty-seventh Indiana regiment are improving, and the physicians believe there will be no more deaths. Excursions from northeastern Indiana brought in many relatives of the men in the regiment, who came laden with things to eat. J. C.

Waterman, the United States mustering officer, hopes to be able to furlough the men by Wednesday. The One Hundred and Fifty-eighth and One Hundred and Fifty-ninth regiments will reach home about the middle of the week. The Twenty-eighth battery arrived here from Chickamauga last night. Five of the men are seriously ill. All will be furloughed at once and sent to their homes in West Virginia.

Seventh to Follow the Fifth Home.
Lexington, Ky., Sept. 5.—The Fifth Illinois regiment left Camp Hamilton for Springfield, Ill., at noon. The Fourth Kentucky will go Wednesday to Knoxville, the First New Hampshire will leave tomorrow for Portsmouth, and the Fifth Missouri will leave probably Thursday for Jefferson barracks, St. Louis. Several other regiments are expected here, including the Eighth infantry, regulars; the Third Mississippi, the Second engineer corps and the First territorial regiment from Tucson, Ariz. The sickness here increases, and the division hospital has more than 700 patients.

Give Nothing Back to Spain.
Asbury Park, N. J., Sept. 5.—Services were held in Ocean Grove Sunday by the Army and Navy Christian commission, whose representatives have been holding services in the war camps. At the afternoon services Major-Gen. O. O. Howard spoke for half an hour on the need of religious work in the army camps. Concerning expansion he said: "Give back nothing to the enemy that God has placed in our hands. Let us start with Cuba and go to Porto Rico and the Philippines." At the close of the service several large subscriptions were handed Gen. Howard.

Cervera Is Going Home.
Annapolis, Md., Sept. 5.—Several Spanish naval cadets left here Sunday enroute to Spain. Admiral Cervera leaves to-day. He goes first to Norfolk, Va., to see the Spanish sick and wounded, and will make arrangements to transport them to New York city. The admiral then goes to New York, and from thence to Portsmouth, N. H. The ship with the sick and wounded Spaniards will then sail for Portsmouth, N. H., to take on the Spaniards there, and thence to Spain. All the Spaniards now here expect to leave Annapolis by Thursday at the latest.

Fifth Illinois Gets Home.
Springfield, Ill., Sept. 5.—The Fifth Illinois infantry is expected to arrive here from Lexington, Ky., to-night. Arrangements have been made to give the boys a grand welcome on their arrival in the city. The regiment will go into camp at Camp Lincoln, where on Wednesday a dinner will be served by the women of Springfield. Col. Calver will give a review in the city in honor of the friends of the regiment, who will be here from all over central Illinois.

More Sick Leave Santiago.
Santiago de Cuba, Sept. 5.—The hospital ship Missouri sailed for Montauk Point Sunday morning with 250 sick and convalescent members of various regiments. The prospect of going home brightened up the sick men greatly. The surgeons said that the change would speedily start them on the road to recovery. Less than 100 sick men of Gen. Shafter's command now remain in Santiago. The Segurana is being equipped to take them home.

Would Keep Philippines.
Cincinnati, O., Sept. 5.—J. J. Hooker of this city about a week ago sent out a circular letter to cotton manufacturers all over the south with the purpose of learning the sentiment on the Philippine question. More than fifty replies received already are practically unanimous in favor of the retention of the Philippines by the United States.

Rumor as to Second Illinois.
Camp Cuba Libre, Jacksonville, Fla., Sept. 5.—A rumor was started Sunday that the Second Illinois regiment is to be mustered out. The report quickly spread in camp and there was great enthusiasm among the men. The rumor could not be verified. It has been announced that the Second will go to Cuba.

Andree May Be Alive.

Washington, Sept. 5.—President McKinley is expected here on Tuesday morning. He may leave Washington that afternoon, immediately after the cabinet meeting, for Cincinnati to review the parade of the Grand Army of the Republic on Wednesday.

VETERANS IN LINE AGAIN.

Grand Army of the Republic at Cincinnati.

CITY HONORS THEIR VISITORS.

Magnificent Illuminations Welcome the Wearers of the Blue Uniforms—Contest for the Position of Commander-in-Chief Has Already Begun.

Cincinnati, O., Sept. 5.—Over 20,000 excursionists are estimated to have arrived here Sunday for the thirty-second national encampment of the Grand Army of the Republic, which began this morning. The depots and the streets presented every appearance of the great annual reunion as the excursionists arrived and were soon seeing the sights. None of the posts arrived in bodies, and yet there were many uniforms among the excursionists. Rain in the morning made the day pleasant for the early arrivals in visiting Camp Sherman and other attractions, and there is every indication that the hot wave is over so far as this locality is concerned.

The arches and other structures were illuminated at night, and thousands viewed the decorations. The first parade occurred at 6 o'clock this morning, when the naval veterans formed to escort Rear Admiral Daniel F. Kelly and staff from the depot to the naval headquarters. The local posts and others formed another procession at the depot when Commander-in-Chief Gobin and staff arrived at 10:40 a. m., and were escorted to their headquarters. Owing to his work in connection with the Ohio hospital train Gov. Bushnell and his staff will not arrive till Tuesday evening, and like duties with the sick Michigan soldiers prevent Gov. Pingree and staff from arriving till Wednesday morning. The governors of all the states will be met on their arrival with large escorts.

The friends for Col. Albert D. Shaw of New York, James A. Sexton of Illinois and I. F. Mack of Ohio are at work early in the contest for commander-in-chief, and there is also an early contest between Philadelphia, Pittsburg, Denver and other places for the next national encampment. Assistant Secretary of Agriculture J. H. Brigham is here from Washington to participate in the reunion of his old regiment, as is also Chaplain Condon of the house of representatives at Washington.

In connection with the encampment there was an unusually large Labor Day demonstration here to-day.

TWO HUNDRED LIVES LOST.

Gold Seekers Perish in the Rush to Copper River.

Seattle, Wash., Sept. 5.—The steamer City of Seattle arrived late last night from Skagway with sixty miners from Dawson, seventy disgusted ones from Copper river, and \$200,000 in gold. It is estimated that 200 men have been drowned or lost their lives on the Valdes glacier since the Copper river rush began. Hundreds of destitute there are being fed with government rations. Four thousand people are rushing to get out before the winter comes.

Forest Fires in Wisconsin.
Ashland, Wis., Sept. 5.—Huge clouds of smoke continue to rise from the forest fires. The wind is blowing a gale, and for a stretch of twenty miles on the Bayfield peninsula dense clouds of smoke obscure everything. Widespread damage will result if rain does not come during the next two days. The following telegram has been received from Butternut: "Forest fires are raging on the west and south of the village, with high wind. The town is threatened and the citizens are all on guard."

Castillo Will Not Serve.
Madrid, Sept. 5.—The refusal of Senor Leon y Castillo, the Spanish ambassador to France, to serve on the Spanish peace commission, on the ground that he could not participate owing to the non-participation of Gen. Horace Porter, the United States ambassador to France, has been accepted by the cabinet. If Senor Monerito Rios accepts a place on the Spanish commission he will be nominated as president.

Elswick Yard Damaged.
Newcastle-on-Tyne, Sept. 5.—A fire broke out Saturday night in an engine shed in the Elswick shipyard. For some time there was considerable alarm, as it was thought that the flames would damage six warships being built there. The fire was extinguished, however, before it spread much. A quantity of machinery was ruined. Two thousand or 3,000 men will be without work until the machinery is replaced.

Corbett and McCoy to Fight Oct. 15.
New York, Sept. 5.—Corbett and McCoy met Saturday and agreed to fight their proposed battle Oct. 15. Under the circumstances the Hawthorne Athletic club can do nothing but acquiesce. Corbett left for Asbury Park and will resume training at once. McCoy will return to Saratoga.

Denmark's Queen Very Ill.
London, Sept. 5.—The Copenhagen correspondent of the Daily Mail says: "The illness of the queen of Denmark has taken a serious turn. She has suffered a hemorrhage and lay for a long time speechless and unconscious. It is feared that a crisis is imminent."

NOTICED THIS BEFORE

You Probably Have and May Have Spoken About It.

The reader of this newspaper if he takes the time and trouble to look carefully through its columns, will probably find half a dozen statements tacked on to the foot of reading notices about proprietary articles. Note this fact. In each and every instance as far as Janesville is concerned, as far as the reader's knowledge of the party is concerned he might just as well live in the moon. Make another note of this. The only remedy on the market, which gives testimony at home, local proof in every town and city in the Union, to back up its claims, is Doan's Kidney Pills. They all try it but they cannot do it. Why they are unable to do it can safely be left with the reader to draw his own conclusions. Here is Janesville proof for Janesville readers.

Mr. Geo. Pratt, of 261 S. Main St., salesman at Brown Bros. Shoe store, says: "I feel that I can guarantee Doan's Kidney Pills for curing kidney complaint. I was subject to it for several years, had a doctor treat me for quite awhile, and as long as I took the medicine I was helped, but as soon as I quit the trouble returned. I took other remedies, but without being benefited. Finally learning about Doan's Kidney Pills I procured them at the Janesville Co's. drug store and took them. They cured me. My symptoms were mostly backache, the kidney secretions contained sediment and were too frequent in action. You are welcome to use my name as one who recommends Doan's Kidney Pills, and I shall be glad to speak a good word for them at all times."

THINK GORDON IS AVENGED.

British Elated Over the Defeat of the Dervishes.

HEROISM OF THE ENEMY.

Gallant and Repeated Charges Made Upon Gen. Kitchener's Lines—British Loss Said to Be Small—Emperor William Sends His Congratulations.

London, Sept. 5.—The news of Gen. Kitchener's victory over the dervishes at Omdurman was received with the greatest satisfaction here, where it is held that Great Britain has at last wiped out the stigma attaching to her defeat in the previous expedition to the Sudan.

Early Sunday morning crowds gathered about the statue in Trafalgar square of Gen. Charles (Chinese) Gordon, who was killed at Khartoum, Jan. 26, 1885, after having been besieged in that city by the dervishes for 337 days.

Some one had placed on the pedestal a placard with the inscription, "Avenged at last," and when the people saw it they burst into loud cheering. Later in the day similar placards were placed on the pedestal, all of which were greeted with cheers.

Thousands of hero worshippers gathered in the vicinity of the statue in the evening, and there was much enthusiasm displayed, which proves the deep hold Gen. Gordon had on the hearts of the people.

Following is the gist of a dispatch received from Gen. Kitchener at the war office:

"The remnant of the Khalifa's forces has surrendered. I have a very large number of prisoners. Cavalry and gunboats are pursuing Khalifa and his chiefs. They have only 150 fighting men with them."

"I visited Khartoum and found it a complete ruin. The people are delighted. Khartoum is the best position. Omdurman's stench was unbearable, and therefore I have moved to Khorsambat. The wounded are doing well."

Gen. Kitchener estimates the British loss in killed and wounded, not including the Egyptians, at about 100 men.

Other advices say the total Anglo-Egyptian loss in killed and wounded was several hundred. The dervishes lost at least 5,000 killed. Thousands of the enemy surrendered.

The correspondent of the Daily News says that the dervishes' loss was not less than 5,000 killed.

The estimates of the number of dervishes engaged in the battle vary from 20,000 to 50,000. With the Khalifa was the harem of Osman Digna. These women escaped.

A dispatch to the Daily Telegraph says that the number of dervishes killed was between 10,000 and 15,000.

The British newspaper correspondents are unanimous in their acknowledgments of the bravery of the dervishes.

The Daily Mail correspondent says that the enemy attacked the camp at 6:30 in the morning, but were driven back with heavy loss before they were within 100 yards.

They again advanced in the face of a fire that no Europeans could face. For hours there was a terrific fusillade, and then the attack died away. Afterward the ground outside the camp was seen to be covered with bodies lying in serried lines. The British loss was slight.

At 8:30 the expedition advanced toward Omdurman, and then the battle became more furious than ever, the fighting lasting for two hours. The dervishes displayed desperate heroism, hundreds of them rushing to certain death. When the smoke of the battle was blown away the ground was carpeted with the dead.

The feature of the battle was a charge of the lancers on a large body of the enemy who vastly outnumbered them. They hacked their way through the dervish lines, though in doing so they lost two officers and twenty men killed and four officers and twenty-one men wounded.

The marquis of Lansdowne, secretary of state for war, and General Lord Wolseley, the commander-in-chief of the British army, have sent dispatches to General Kitchener congratulating him upon his victory over the dervishes. The queen has also sent a direct message to General Kitchener.

Cairo, Sept. 4.—The congratulations from Emperor William on General Kitchener's victory, which his majesty says "avenges the death of poor Gordon," were the first received from Europe.

Praised by the Kaiser.

Hanover, Sept. 5.—While addressing the troops in the Waterloo platz Sunday, Emperor William called to memory the comradeship that existed between the British and German troops at Waterloo, and said: "The British a few hours ago won a victory against a stronger foe." He then called for three cheers for Queen Victoria.

Yucatan Indians Revolt.

Oaxaca, Mexico, Sept. 5.—The Mexican military authorities here have been notified that the Indians in the southern part of Yucatan have united in an uprising against the Mexican cattle men of that section, and have committed a number of murders. A large force of Mexican troops has been ordered to the scene.

Thomas F. Bayard Dying.

Dedham, Mass., Sept. 5.—Thomas F. Bayard is failing steadily, and his physicians say that his death is probably a matter of only a few days. Saturday there was a change for the better, but a relapse set in Sunday.

WILL NOT FUSE.

Populists Will Make the National Campaign Alone.

Cincinnati, O., Sept. 5.—There is promise of a sharp contention in the Populist national convention, which met in Music hall here today. On one proposition all the delegates from the twenty-six states which will be represented are agreed. They are unanimous in opposition to further alliance with the Democrats. They want no more fusion.

Part of the plan of this convention, and one of the principal reasons for calling it, is to select a new national committee from which all advocates of fusion will be excluded.

On the question of nominating candidates for President and Vice-President to be voted for in 1900, the delegates are divided. Most of the southern states, except Texas, favor making the nominations now. So do the delegations from Pennsylvania, Iowa, Minnesota, Michigan and other northern states. Illinois and Texas and a few delegates from the south oppose nominations and desire this convention to stop after having reorganized the party and shut out the fusionists.

The nomination party seems to have the majority, and some of the other side declare that if presidential nominations are made they will bolt the convention.

Bryan Wants to Come Home.

Lincoln, Neb., Sept. 5.—Gov. Holcomb has wired the war department with reference to having something done for the Third Nebraska regiment, better known as the Silver Battalion. There is much alarm in the state over the condition of Col. Bryan's regiment. There has been in three weeks an increase in the sick list from forty-four to 140. There have been three deaths and altogether the members of the families represented by the Third are much alarmed. Gov. Holcomb asks the secretary of war to give all the Third recruits who desire to come home an honorable discharge, since there can be nothing more to do but garrison duty. Col. Bryan, too, wants to get back and take part in the fall campaign. He wires that he does not want to resign if his regiment can be mustered out at once, but otherwise he will resign, as there is no further need of his presence in the army.
